

MODEL: UNIVERSAL GEARBOX, 70103**STOCK CODE: 240300005****Description**

The universal gearbox works well in a variety of applications and can be mounted several ways. A hex shaft and a threaded shaft are included to give the builder flexibility in design. Use this gear box and motor set with other Tamiya Construction and Robotics products. The plastic gears and metal gear box are all high quality. A FA-130 motor is included. This gear motor requires assembly. Assembly guide is included.

Specification

- Gear Ratio: 101:1, 269:1, 719:1
- Motor: FA-130, 1 unit
- Shafts: 3mm hex, 105mm long
- Operating Voltage: 1.5V-3.0VDC

Theoretical Speed and Torque outputs (approximate), at 3 Volts:

Gear Ratio	101:1	269:1	719:1
Speed RPM	128	48	18
Torque g-cm	468	1248	1500
